### IT STAFFING SOLUTIONS

With the experience of decennaries in human resource and technology, we understand, build and help our customers hearten good and effective organization structure by intensifying the recruitment quality, alleviating the process of hiring globally for all requirements and centralizing the information for Continually Improving Individual and Organizational Effectivity.

Human Resources is the core of any Industry. Every organization whirls around 4P's- People, Process, Product and Profit. This is the mantra for any business. Business always starts with People and surceases with people. Many organizations pay out time and money to get the correct balance in the organization.

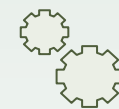

### APPLICATION DEVELOPMENT

Application development has come a long way, at Nextgen we adopt the scope and place that into a source, were when supported by best methodologies what industry must offer after this decades of experience and learning. Nextgen experts understand it is a process of writing and maintaining the source code, but in a broader sense, it includes all that is involved between the conception of the desired software through to the final manifestation of the software which is the core, In this planned and structured process, we help create a world class software development platform were customer can make use of the available and future information for better decision which will help the business.
